The Greatest Free Event Ever

So…I'm having a book launch. And you're invited because you trusted me enough to give me your address. So, giving you a formal, hard copy, real world, old school invitation was *the least I could do*.

The book launch is for my next book, **$100M Money Models**. It's the book you never knew you needed. Most businesses lose money advertising because they spend more money getting customers than they make. The reason is - they don't know how to get people to *spend more money faster*. This book reveals the trade secrets only the pros know - in *gritty* detail. You'll be able to grab a copy at the launch and see the models used in real life. After all, *the objective for all business owners is to make money*, not just read about it.

That being said, I wanted to give you a few reasons to register early (free) and preorder the book (optional and $29.99)…

First, you should register because I've spent two years working on the stuff I'm gonna be giving away live. You won't wanna miss it.

Second, if you choose to preorder, you'll get instantly upgraded to VIP for the event (think red carpet and back door access).

Once you're a VIP, you get all these neat perks:

1) I'm randomly selecting 10 people who preorder the book to fly out to Vegas to spend a day at my HQ with me.* It'll be awesome.
2) You'll get a guaranteed priority hardback first edition (in case we sell out - probably a ~50/50 shot) and you'll get your copy before anyone else does (first out the door)
3) You'll have your own private livestream separate from the general internet with chat enabled to submit questions to myself and my five mystery headliners
4) You'll also get a ticket to a separate virtual event, where I'll share all the strategies I used to launch this book that you can copy to launch anything you want.

And if you wanted a "feel good reason" the reason I'm offering all this is because my warehouse team will likely be overwhelmed by the demand. They asked me to give some incentive for people to preorder the book so they could better prepare.

So I figured, *"for the same price as the book you get all these extra amazing things, better, faster"* was a good place to start.

That being said, what do you do now? Well, if you want to register for the event (free) you can do so here: register.acq.com. After you register, you'll have the option to preorder a book (zero obligation - but if you're gonna do it eventually, you might as well do it now and get it faster *with all the free goodies*). To make it fast and easy, I put a QR code at the bottom of the page.

Can't wait to see your reactions.

Expect fireworks,

Alex

REGISTER

PS - I also have a **secret project** I've been working on for multiple years that I'm releasing live at the event. It's better than an NFT and less than a Bitcoin. And every person who shows up live gets **one**. But you gotta be there live to get it. You're gonna love it. :) I also sent you a reminder magnet so you don't forget.

5 Reasons You Should Come To The $100M Money Models Live Launch Event…

First, there's the book I'm launching, **$100M Money Models**. The book you never knew you needed. This is because most businesses lose money advertising. Bad. Then they spend more money getting customers than they make from them. Worse. The reason is - they don't know how to get people to *spend more money more effectively*. This book reveals the trade secrets only the pros know. Some of them, only I know…in *gritty* detail. After all, *the objective for all* entrepreneurs *is to make money*, not just read about it.

Second, I'll be revealing the money models responsible for the vast majority of my material success. You'll be able to see them used in real life. Just like the value equation, this will become a core concept across the business world. If you own a business, you will want to know this. It will be worth your time. That's a promise.

Third, I have *at least* five mystery headliners coming to deliver tactical value. Some of the best business people don't have business brands. They just do business. These five have never appeared on the same stage together, and likely won't again. You will want to hear them.

Fourth, you'll get a secret project I've been working on for over two years in preparation for this launch. It's better than an NFT and less than a Bitcoin and you'll get a coupon code to check out with live for free. But only if you show up live.

Fifth, Big. Fat. Giveaways. For everyone. Plus, anyone who preordered a book or referred a friend to the launch, I'll be selecting 10 of you to come out to spend a day in Vegas HQ* with my team live (plus other prizes). If your name gets called and you're not there, you'll miss out.

What to do now: To get all these amazing bonuses, register for free then preorder (optional and $29.99) a hardback copy of money models at register.acq.com To make it quick and easy, scan the QR code to the left below:

4) One simple process can transform your revenue forever…

- Sent in all 200 book orders + 200 Book + 15 upsell
- CTA - Go to QR code

****Attention Business Owners****

If you're not a business owner, please ignore this letter and enjoy the playbooks.

One simple process can transform your revenue forever…

So—there's a million and one things you hear everyday to grow your business. *Post on social media, get affiliates, run pricing tests, do conversion rate optimization, lower churn, hire more people…*

All while…*hopping on and off meetings, endless notifications, new emails, phone calls, sales meetings, personnel issues*…the list goes on forever.

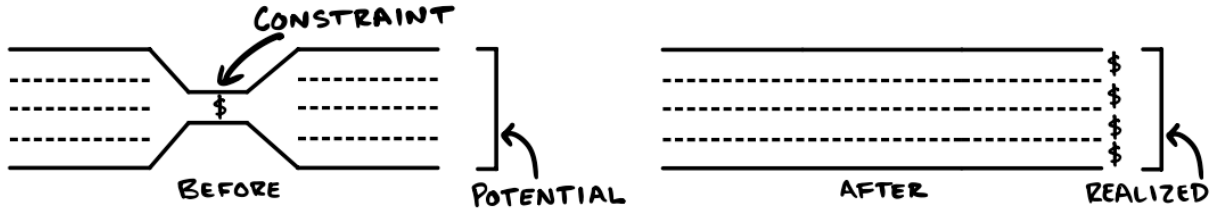
It makes what should be simple, into a near impossible feat. There's a reason 95% of businesses in the US are <$1M in annual revenue. And only .4% (1 in 250) make it past $10M. And only ~.2% make it over $50M (1 in 500)***…it's hard.***

So no, *I have no magic pill for you,* but I do have a process that's helped Leila and I scale our companies (and get some big exits) over the last 13 years. And I'm gonna show you how it works, and how to use it, **on one piece of paper.**

How It Works

It's based on a single premise: *every business grows until it hits a constraint, then it will grow no further.* Once you relieve the constraint, the business grows again until it hits the next constraint.

Think About It Like This…



Let's say you have a four-lane highway that narrows down to one lane. What happens? A traffic jam. If you add lanes before the bottleneck, what happens? A bigger traffic jam. What happens if you add lanes after the bottleneck? Traffic still moves at the one-lane speed. In other words, you add potential to the system, but not throughput. This is what most business owners do. They add capacity before or after the bottleneck. They work. But nothing grows.

The only way to get rid of the traffic jam—aka—scale the business—is to add lanes to the one-lane section. Once you do that, the traffic flows at the "four-lane speed"—think max revenue growth—until you hit the next bottleneck.

So, the obvious question becomes—*how do you make sure what you're working on is the "one-lane problem" - aka - the constraint?*

How To Figure Out Your Constraint (Your One-Lane Problem)

1. Ask: "What's the one thing you do that makes the most money?"
2. Then ask: "What if I just did 50X more of that?"
3. When you say you can't, ask yourself: "Why not?"

→The answer to that question is the constraint that's limiting the business.

Easy To Say, Hard To Do

Let's say "scaling ads" is the thing that would make you money - BUT - the one thing that happens is you are no longer profitable when you scale them. That's the clear symptom, but the root cause could be: you don't make enough per customer - or - it costs you too much to get them.

To figure out which, you'd look at benchmarks for the industry. Let's say you find out you're getting customers for the same price as everyone else…then you'd need to make them worth more: raise prices, decrease churn, add an upsell/cross sell, or some combination of them all. Alternatively, let's say you find it's costing you *too much* to get customers. Then you'd need to: fix targeting, make more ads, make better ads, split test your offer/lead magnet, optimize your click journey for your customers…or some combination. That's a lot. **So, where do you start?**

Where To Start

"A fool never learns from his mistakes. A smart man learns from his mistakes. A wise man learns from the mistakes of others" - Some wise philosopher

This leads us to the only two ways you can solve the problem: 1) trial and error 2) learn from someone else. To be clear, you'll figure it out either way. The question is only how much you value *getting there faster*.

How I'd Like To Help

At Acquisition.com all we do is scale companies. We literally look at thousands of companies every year. We see what works. Where they get stuck. And most importantly, how they get unstuck. If you'd like to have my team spend two days helping you figure out the constraint to your business *and* the most efficient path to solve it…I'd like to invite you to come out to my office in Las Vegas to have my team of functional experts work on it with you.

Here are the main points: the cost is $7,500. We'll only invite you to come if we think we can help you. The room is limited to 70–80 good businesses. It's not a huge event. It's at my office. You'll get personalized attention from my actual team that does this across our portfolio. And I'll be there too.

Next Steps (if interested)…Go to acq.com/scale

- Look at full workshop details
- Check common questions
- Book a call to see if it's right for you

If interested, I look forward to meeting you soon. If not, enjoy my playbooks. I wrote them for you. It's some of my best work. I hope you enjoy it as much as I enjoyed making it for you.

Alex Hormozi

P.S. If you jumped to the end, here's what you missed:

1. We're offering a two-day Scaling Workshop at our office
2. You'll learn to find and fix your business roadblocks
3. We keep it small to give you personal help
4. Visit ACQ.COM/SCALE to learn more and apply

SCAN ME

5) THANK YOU FOR JOINING THE MISSION

- Sent in all 200 book orders + 200 Book + 15 upsell

THANK YOU FOR JOINING THE MISSION

You donated 199 other copies of $100M Money Models to other entrepreneurs. As my way of saying thank you, this binder contains the series of tactics I've used to generate hundreds of millions of dollars. And now it's yours.

Inside this book are 4 simple systems, broken down into 12 actionable playbooks. Each designed to remove the bottlenecks that keep businesses stuck, broke, or both. You also have access to the halfday virtual workshop to help select which playbook is right for you right now - and - access to the GPT we trained to help personalize your action taking steps.

Here's what you just unlocked:

1. THE LEAD SYSTEM — 4 PLAYBOOKS
Get more people to raise their hand, show interest, and walk through your digital (or real-life) doors. This includes the: Goated Ads, Branding, Hooks, and Marketing Machine playbooks.

2. THE SALES SYSTEM — 3 PLAYBOOKS
Turn conversations into conversions, scale acquisition without scaling ad costs, and create "easy yes" offers. This includes the: Lead Nurture, Closing, and Proof playbooks.

3. THE DELIVERY SYSTEM — 2 PLAYBOOKS
Consistently deliver the value you promised—without it falling apart behind the scenes. This includes the: Lifetime Value, Closing, and Churn playbooks.

4. THE PROFIT SYSTEM — 3 PLAYBOOKS
Keep what you make, and turn revenue into profit. (Spoiler: most people screw this part up.) This includes the: Fast Cash, Pricing, and Price Raise playbooks.

5. ACQ Implementation Workshop — Your confirmation email has dates and details.
Figure out which playbook is right for you right now. And use it to unlock your growth.

6. ACQ GPT— Access in your email
To provide fast and personalized tactics to your specific industry/business type. I trained the GPT on all 3 $100M Series Books + Loss Chapters + 12 Playbooks + Notes from the 1026+ businesses we advised. It's also yours.

If you do nothing but read and apply the ideas in these 12 playbooks, you'll grow. Fast. And if you get stuck—flip to the section on that system. Solve the problem. Move forward.

Scale your business. Save the world,
Alex
